

SMART Notebook™

collaborative learning software

SMART Notebook lets teachers create high-impact lessons, access high-quality education content and engage students with unique interactive learning. Plus, it's now easier to standardize on Notebook software across all brands of interactive hardware in your school or district.

The screenshot displays the SMART Notebook software interface. The top menu bar includes 'Insert', 'Format', 'Math', 'Tools', 'Add-ons', and 'Help'. Below the menu is a toolbar with various icons for navigation and editing. The main workspace shows a satellite image of Earth with handwritten annotations: 'Stratosphere' in red, 'Ozone Layer' in black, and 'Troposphere' in purple. A large blue circle on the right side of the workspace contains the following text:

- Created by teachers for teachers
- Access high quality resources
- Intuitive learning tools
- Standardize with SMART Notebook

In the bottom right corner, the text 'Inspired Collaboration™' is followed by the SMART logo.

Why choose SMART Notebook:

Created by teachers, for teachers

SMART Notebook has been created and refined based on feedback from educators. It supports different teaching approaches, from large classes and small groups, to individual student learning.

Access high-quality resources

Get instant access to SMART Exchange, an online library that offers over 60,000 free high-quality lessons, teaching resources and content created by over 3 million current SMART Notebook users.

Intuitive learning tools

SMART Notebook includes tools that make creating lessons a simple and intuitive experience. Get started instantly and save time creating and teaching lessons.

Standardize with SMART Notebook

Purchase SMART Notebook for other brands of interactive hardware and create a single standardized platform that helps students and teachers work more effectively with the equipment they already have.

New for Notebook 2014:

SMART Response VE

Seamlessly transition between lesson delivery and assessment. Students can respond to planned and spontaneous questions and quizzes from any Internet-enabled device, anywhere.

XC Basic

Stimulate collaboration and discussion while incorporating mobile devices into your SMART Notebook lessons in new and exciting ways.

SMART Notebook Math powered by Geogebra

Improve math functionality for all grade levels with more than 55,000 math content objects and interactive activities for geometry, algebra, calculus and statistics. It supports both Mac and PC.

Ink editing

Enhance instruction with automatic handwriting recognition and conversion combined with intuitive text editing capabilities. Now you can edit, move, delete, modify or insert text objects without reaching for a keyboard.

SMART Notebook 3D tools

Provide truly immersive learning through the use of 3D objects right in your SMART Notebook lesson.

SMART Notebook Connect

Find and explore new content, resources and professional development within SMART Notebook.

Paint Brush pen style

The Paint Brush pen type allows you to write or draw in paint-like digital ink.

Cropping images

Crop images without deleting selections and with the ability to restore back to the original image.
