

Specifications

SMART Room System™ for Microsoft® Lync® wall stand kits

Models WSK-SINGLE and WSK-DUAL

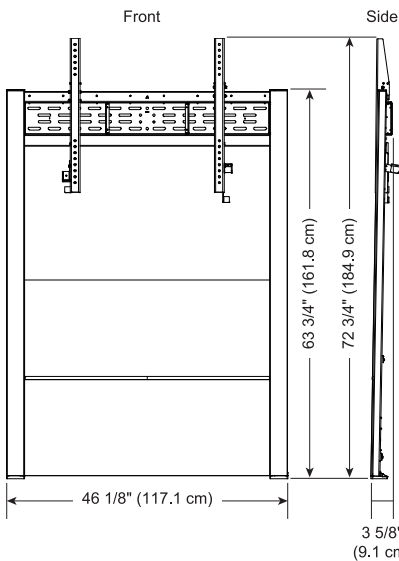

Overview

An optional accessory for your SMART Room System™ for Microsoft® Lync®, the wall stand kit includes a wall stand for each SMART Board® interactive flat panel in your room system and a cable raceway. The wall stands and the cable raceway can cover cables running from the interactive flat panels to the meeting room table. In addition, the wall stands transfer some of the weight from the wall to the floor and are required for metal stud walls that cannot support the full weight of the interactive flat panels. The cable raceway complies with section 303 of the ADA design standards.
