

SMART Meeting Pro PE 1.3

SMART Meeting Pro Personal Edition lets you build ideas without restraint. Whether you're preparing for a meeting, collaborating in one or reviewing the information afterwards, you can access, engage and create content anytime, from anywhere.

Version 1.3, for Windows, features SMART Meeting Pro Server 2.0 with Connector for Microsoft Lync. This update lets you annotate over documents within your Microsoft Lync 2013 meeting.

Key features

SMART Meeting Pro Server 2.0 with Connector for Microsoft Lync (Windows only)

Allows any participant to seamlessly annotate within Microsoft Lync 2013 meetings without needing to pass control.

Unbound Workspace

Unlock never before seen levels of content creation and interaction anytime, anywhere in a virtually unlimited collaboration workspace.

Bookmarks

Add bookmarks to help easily navigate the unbound workspace.

Shapes Tool

Add commonly used shapes and lines to the unbound workspace.

Pan

Pan within models and files in any direction in the Unbound Workspace.

Radar View

Keep a maps-style overview of your content that shows your current location and content that is outside of your current view, as well as allowing you to navigate to different areas of your workspace.

SMART Ink 2.2™

SMART Ink automatically enables you to write in any application window.

Mac or Windows compatible

Continue to evolve and revise project files on your own from your Mac or PC.

Zoom

Seamlessly zoom in to work with the details of a model, or zoom out to see an overview.

Integration with SMART Bridgit conferencing software™

When used with SMART Bridgit*, remote participants can easily share their video, audio and digital ink annotations as if they were collaborating in the same room.

** Server and user licenses sold separately.*
